Dated 1940

[Despatch Abstract]

Assessment Land Revenue
Bellary Taluk.
42 villages. Remission
of dry assessment Sanctioned.

Revenue DEPARTMENT.

CURRENT No. 1286E

Received 4 JUN 19[illegible] 19 *Registered* 4/6 19

Subject.

Assessment - Land Revenue - (Bellary) - Bellary Ta
42 villages - Remission of dry assessment - Prop
submitted.

Reference S. No. 1343/40-4.

Station Madras, *Dated the* 31st May 1940 19

From

R.A.Gopalaswami Esq., I.C.S.,

Joint Secretary,

Board of Revenue.

Madras.

C.A.Henderson Esq., C.S.I., V.D.,I.C.S.,
Commissioner of Land Revenue and Irrigation.

F.W.Stewart Esq., C.I.E.,M.C.,I.C.S.,
Commissioner of Land Revenue.

T.Austin Esq., I.C.S.,
Commissioner of Excise and Separate Revenue.

Read the following:-

I.

Letter from A.D.Crombie Esq., C.I.E.,I.C.S., Collector of Bellary, No. 532/40-A-5, dated 26-2-1940.

II.

Board's Reference S.No. 1343/40-3, dated 19th April 1940.

III.

Letter from M.Karamatullah Esq., I.C.S., Collector of Bellary, Ref. C.No. 532/40-A-5, dated 27th April 1940.

REFERENCE:

Submitted to the Government.

2. In the circumstances stated by the Collector in his two letters read above the Board supports his proposals for the remission of dry assessment in 42 villages of the Bellary taluk as follows:-

50 % (in the scale of 50 % to 75 % laid down in B.S.O. 14-5 (ii) to 10 villages with average outturn of 4 annas and below but over two annas).

50 % (in the scale of 25 % to 50 %) to 6 villages with average outturn of over 4 annas but below 6 annas).

25 % (in the scale of 25 % to 50 %) to 26 villages with average outturn of over 4 annas but below 6 anna

3. Of the 42 villages for which remission is recommended No.25 Singadevanahalli is a shrotriem village. The Board recommends that remission on the scale proposed by the Collector may be granted to the Government dry lands in the village on the analogy of the orders in G.O. No. 1930 Revenue dated 1-8-38.

4. The Board also recommends that the concessions proposed in paragraphs 2 and 3 above may be extended to unobjectionable cases of siveyjama and minor inam lands charged with full assessment or with a quit rent equal to or more than the full assessment.

for Joint Secretary.

To the Secretary to the Government, Revenue Department, with a plan.

Copy to the Collector of Bellary.

Copy of letter from A.D.Crombie Esq., C.I.E.,I.C.S., Collector of Bellary, No. 532/40-A-5, dated 26th February 19.

Assessment -Land Revenue - Fasli 1349 - Bellary district and taluk - 42 villages - remission propos submitted.

Ref.- (1). This office C.No. 532/40-A-5, dated 8th February 1940, and 14th February 1940.
(2). Board's Ref. S. No. 1343/40-1, dated 14-2

I submit my further report in detail on the seasonal conditions under various heads:-

2. Rainfall.- The main features of the present season is the belated and inadequate rainfall during June and July (1939) when sowings are generally commenced on an extensi scale. There are only two rain recording stations, Kurugodu and Bellary - in Bellary taluk. The tract affected is the Kurugodu firka and the bordering villages of Kolur and Bellary firkas and eight villages of Kupanagudi firka. In all 42 villages are affected. A comparative statement showing the particulars of rainfall recorded both at Bellary and Kurugodu stations in 1938 and 1939 was already furnished to the Board from which it is seen that there was no rainfall at all in the months of April and May 1939 and that there were only 0.10" and 0.82" of rain in June and July 1939 which is usually the sowing season for 'mungari crops'. As the rainfa in these months was very little, the sowing operations were retarded and they could not be completed till the middle of August 1939. The mungari sowings were thus belated. Cessation of rain from the middle of August 1939 to the middle of September 1939, just at a time when the tender crops needed rain most, further affected the late sowings. Though the

excessive rainfall in October 1939 resuscitated the crops it did not improve their condition sufficiently.

3. Crop history.- The standing crops - mungari cotton, hingari cotton, white cholam and korra - were affected by a blight commonly termed as "Katiki" locally. Mungari cotton is stunted in growth and the lower leaves have withered away. Hingari cotton, Korra and white cholam have also been affected by this blight. September is the normal season for the 'hingari' sowings. As there was no rainfall for about one month followed by an excessive rainfall in October, the hingari sowings were deferred till November 1939. The hingari crops looked promising ti the middle of December 1939, but unfavourable dry winds and want of dew combined with agricultural pests have caused a sudden deterioration of the standing crops in the last week of December 1939. The taluk was affected intermittently. Relief was granted by way of either suspension or remission in previous faslis - 1336, 1338, 1340, 1341, 1344, 1346 and 1347. Fasli 1348 was normal year which yielded a good harvest. Loans instalments were therefore ordered to be collected.

4. Irrigation sources. There are no irrigation sources worth the name in the Bellary taluk except the five Hagari Spring channels and two other vanka channels. There are very few wells in the taluk, especially in the affected tracts. The well irrigation is also extremely limited. The villages in Bellary tal[illegible]cularly the affected tracts, are mainly rain fed.

5. Trend of prices.- A comparative statement showing the trend of prices of food stuffs for 1938 and 1939 is enclosed. The price of food stuffs is steady now. With the commencement of the war, there was a general inflation in the prices of food stuffs and other commodities. This was due to the merchants witholding stock on a speculative basis. Now with the arrival of fresh stocks after the harvest, the prices

of food grains are normal. There will be no dearth of food grains as the harvest in other parts of the district has been good.

6. Outturn statements.- These have been prpeared in acc ance with B.P. Mis. 3185 dated 9th October 1938, B.P. No. 501 dated 20th February 1939 and B.P. Mis. 1699 dated 20th June 1939. The villages have been arranged under two groups - A a B. List A contains villages with an outturn of 4.5 annas and below. List B contains villages with an average outturn of to 6 annas. The Revenue Divisional Officer, Bellary has not recommended the grant of remission in respect of two village Shrotriem Somlapur and Shrtotriem Bhatrahalli otherwise known as Lakshmipuram, as the mungari crops in these red soil villages have fared better than the adjoining affected villa Hence these two villages in respect of which postponement of collection of the first kist was ordered have been excluded. The Revenue Divisional Officer, further reports that four mor villages, Kolagal, Janikunta, Hariginadona and Sanjivarayanko of Bellary firka are also affected and deserve a remission of 4 annas in the rupee, which is justifiable according to the outturn statement. These four villages are now included in the list B. Out of the 42 villages affected, the Revenue Divisional Officer, Bellary has inspected 32 villages. The other villages are also similarly circumstanced. He has recommended 4 annas remission in respect of 26 villages and ei annas remission in respect of 16 villages. The amount involved in this proposal comes to Rs.45414/-. I inspected th crops in a number of villages and agree with the Revenue Divisional Officer, Bellary. The ryots had to pay the land revenue and loans instalments, which has been suspended for about 17 years, the Fasli 1348, and the loans instalments have been collected with considerable difficulty. This has largely offset the benefit of food crops in Fasli 1348. I,

therefore, recommend that remission be granted at the rate of 4 annas in respect of 26 villages mentioned in the list B and 8 annas in respect of 16 villages in the list A.

7. A tracing of the Taluk plan showing the affected villages marked with distinct colours according to different grades of remission recommended in the lists A and B, is enclosed

8. The whole amount, if ordered, will be given effect to in April 1940 (i.e.) during the financial year 1940-41.

Group'A.'

Villages for which the average outturn is 4-5 annas and less and for which a remission of 0-8-0 in the Rupee has been recommended.

Copy of letter from M.Karamatullah Esq., I.C.S., Collect
of Bellary. Ref.C.No. 532/40-A-5, dated 27th April 1940.-

Assessment - Land Revenue - Fasli 1349 - Bellary District and Taluk - 42 villages - Dry assessment - Remission proposals - Furthe report submitted.

Ref.- Board's No. S.1343/40-3, dated 19th April 1940.

The average outturn in the six villages noted in the margin* is, no doubt, above 4 annas. The average outturn worked out to one decimal place is noted against each of them They were included under group 'A' for the reason that though the average outturn was above 4 annas it was below 4.5 annas and poorer than that of the surrounding villages. The Revenue Divisional Officer who was asked to report definitely the special reasons for including them under group 'A' reported that the hardships of the ryots in these villages were more acute than in the surrounding villages where the outturn was above 4.5 annas and that the villages with an outturn of 4.5 annas and less deserved more concession than the villages with an outturn of 4.6 annas and above. Except Kyadigihal where the average outturn is just 4.5 annas, the average outturn in the other five villages is just above 4 anna and poorer than in the surrounding villages for which a remission of 4 annas has been recommended. My predecessor, Mr. A.D.Crombie, I.C.S., after inspecting crops in a number of villages, agreed with the Revenue Divisional Officer, Bellary, and recommends the grant of remission of 8 annas in the rupee for these six villages also. The recommendation for the grant of the maximum concession of remission of 8 annas in the rupee to the village with the average outturn of 4 to 8 annas is in accordance with the discretion vested in the Collector under B.S.O. 154 (5) ii. I, therefore, consider that the remission proposals already submitted do not require

any revision and request that the Board may be pleased to pass early orders in the matter.

Village.	Outturn.

Assessment - Land Rev. - (Bellary

Bellary Tk. - 42 villages - Remission of dry assessment - Proposals.

(21)

1286 E 40

From the Bd. of Rev. Regd. No. 1343 40-4 dt 31.5.40

To W.S.

Please see

(1) the letters from the Collr. of Bellary at pp 3-12 C.F., and,

(2) the Bd's remarks thereon at p 2 C.F.

Para 6 on pp 5 b C.F.

2. The Collr. has recommended 50% remission (of dry assessment) in respect of the 16 villages noted in the list at p 7 C.F. & 25% remission (of such assessment) in respect of the 26 villages noted in the list at pp 9-10 C.F. At pp 3-6 C.F. the Collr. has submitted a detailed report about the seasonal conditions in the 16 villages for which 50% remission is recommended.

It will be seen from the list at p 7 C.F. that in 6 out of these 16 villages, the out-turn was more than 4 annas & in the remaining 10 villages the out-turn was 4 annas & less. According to the scale laid down in Bd's Rso 14-5(ii), the remission in respect of the 6 villages should range from 25% to 50% while in respect of the 10 villages it should range from 50% to 75%. In reply to an enquiry from the Bd. why the same concession

p 35 of Bd's Rso 14-5 (ii)

was recommended for both the sets of villages the Collr has explained the reasons for this recommendation in the letter at Pp 11-12 Cf. The BoR has therefore recommended the minimum remission of 50% in the scale of 50% to 75% in respect of 10 villages with average outturn of annas 4 below & the maximum remission of 50% in the scale of 25% to 50% in respect of 6 villages with average outturn of 4 to 6 annas. For orders whether the BoR's recommendation will be approved.

26 villages for which 25% remission is recommended:-

The average outturn of the 26 villages noted in the list at Pp 9-10 Cf. is over 4 annas but below 6 annas. According to the scale prescribed in BSO 14-5 (ii) the BoR has recommended the minimum remission of 25% in the scale of 25% to 50% in respect of these villages. For orders whether the BoR's recommendation will be approved.

3 Of the 26 villages for which remission of 25% is recommended, Sl. 25 Singadevanahalli is said to be a Dhrotrieu village & the BoR has recommended the grant remission to the Govt. dry lands in the village on the analogy of the orders in

p 9 of (M) Cir. Nr. 1930 Rev., Dt., 1-8-38. For orders whether the BOR's recommendation will be approved

Para 4 p 2 cf 4. The Board also recommends that the concessions proposed by it may be extended to unobjectionable cases of sivaiyana & minor inam lands charged with full assessment or with a quit-rent equal to or more than the full assessment. The BOR's recommendation is in accordance

p 36 : para 1 with the provisions in BOR. 14-6. For orders whether it will be approved.

p 5 cf 5. The total cost of the concession is ~~estimated~~ to be Rs 45,414/- Please see the ~~abstract~~ statement at ~~page~~ p 10 cf. for the details of the amount involved in respect of the several villages. After orders are passed, the file may be sent to Trin for remarks

(The Kist-bandi of the area ended with April. It is presumed that the Coll. has suspended the collection of the amount which is proposed to be remitted. The proposals were first sent to the Board in July 1940)

Statement at p 388 : Bk. 2 Vol II Bk 2

Vide para 14(3) p 34 of Bk 2 Vol I Bk 1

p 3 cf

16/6/40. The BOR's proposals may be accepted

7/6

The Bd's proposals may be accepted

This is another revision case in which the Bd

The Govt sent up proposals on 26.2.40. On

15.4.40 the Bd asked for a covering letter

replied to (pp 11-12 c.f.) on 27.6.40. The

Bd's proposals received Govt on 4.6.40. There

Abstract

Assessment - Land Revenue - Bellary - Bellary Taluk - 42 villages. Remission of dry assessment - Sanctioned.

Revenue Department

G.O.No.Ms.1564, Dated the 26th June, 1940.

Read the following:--

From the Board of Revenue, Ref.S.No.1343-40-4, dated the 31st May, 1940.

O R D E R.

In view of the adverse seasonal conditions reported, the Government are pleased to accept the recommendations of the Board of Revenue in its reference quoted above and to sanction remission of dry assessment in the following villages of Bellary District and Taluk in the scale noted against them. The remission now sanctioned should also be granted in the villages concerned in unobjectionable cases of sivoijama cultivation and in minor inam lands charged with full assessment or with a quit rent equal to or more than the full assessment.
